

Wonderlic Online System Requirements

Supported Browsers

Wonderlic Online relies on the capabilities of modern web browsers in order to deliver the features you rely on. You'll need to use one of the browsers listed to use Wonderlic Online.

- Microsoft Internet Explorer 11
- Microsoft Edge
- Google Chrome – Latest Version
- Mozilla Firefox – Latest Version
- Apple Safari 5+

Additional System Requirements for Clients

- Cookies must be enabled
- Adobe Acrobat Reader is required to view assessment reports (available as a free download at <https://get.adobe.com/reader>)
- Clients who intend to administer proctored tests on their computer must also register their network's IP address with Wonderlic

To check if your system meets the necessary requirements, or to find your IP address, visit <http://www.wonderlic.com/systemcheck>

Additional System Requirements for Test Takers

- JavaScript must be enabled
- Wonderlic Office and Software Skills Tests require the installation of Flash in order to access the assessments (available as a free download at <https://get.adobe.com/flashplayer>)
- Wonderlic recommends that all testing take place using a high speed, wired connection to the internet to minimize the possibility of test disruption
